WHAT WE BUILD

Our Core Services Portfolio

Six disciplines. One studio. Delivered at speed.

01

Website Development

Next.js | Mobile-First | SEO-Ready | 5–7 Day Delivery | FLAGSHIP

02

Bespoke Web Applications

React | FastAPI | PostgreSQL | Custom Logic

03

Internal Business Tools

Dashboards | Automation | Portals | Operations

04

Flyers, Posters & Print Media

Event Flyers | Banners | Social Media | Print-Ready PDFs

05

Logo & Brand Identity

Logo Design | Colour Systems | Typography | Identity Packages

06

Pitch Decks & Company Profiles

Investor Decks | Tender Profiles | Funding Applications | Enterprise Meetings

Every service is delivered with the same discipline — whether it's a landing page or an enterprise platform.

CORE SERVICES · FLAGSHIP

Website Development

A website is not a marketing expense. It is infrastructure.

Built on Next.js — the same framework powering some of the world's most demanding platforms — deployed on Vercel's global infrastructure. Engineered for South Africa's real-world bandwidth conditions.

⚡ 5–7 Business Day Delivery

Mobile-First Design
Built for the smartphone-first South African user

Core Web Vitals
Performance metrics Google uses to rank your site

SEO From Day One
Built-in optimisation — not bolted on after

WhatsApp + Maps
Click-to-chat, Google Maps & contact forms — standard

Hosting & Domain
Year 1 hosting and domain included — zero extras

Google Business Profile
Setup included on every build

TECHNOLOGY STACK: Next.js · Vercel · Mobile-First · SEO · Core Web Vitals

CARTER DIGITALS

All add-ons can be bundled with any website package or applied to existing platforms.

SERVICES · BESPOKE SOLUTIONS

Bespoke Web Applications & Internal Tools

Custom-built to solve your specific operational challenges — not adapted from templates.

Portals & Secure Logins

Staff portals, client dashboards & role-based · access control.

Secure Login | Portals | Multi-User

Quoting, Invoicing & CRM

Automated quotes, invoice trackers, client management & payment dashboards.

Quotes | Invoicing | CRM

Operations Dashboards

Live KPIs, staff trackers, project pipelines & Kanban boards.

Real-Time Data | KPIs | Kanban

Booking & Scheduling

Appointment systems, resource scheduling & automated WhatsApp flows.

Appointments | Scheduling | WhatsApp Auto

AI-Powered Tools

Intelligent chatbots, document processors, automated reporting & AI assistants.

AI | Chatbots | Automation

E-Commerce & Payments

Online stores, booking funnels, payment gateways & order tracking.

E-Commerce | Payments | Order Tracking

— Every tool we build is architected from scratch — engineered for your workflow, not adapted from someone else's. —

DELIVERY METHODOLOGY

Our 5-Phase Delivery Framework

From first conversation to full handover — every phase is intentional.

01 Discovery & Alignment

Map goals, stakeholder expectations, technical constraints, and compliance requirements — before a single line of code is written.

02 Architecture & Wireflow

Design information hierarchy, user journeys, and system architecture upfront — eliminating scope creep before it starts.

03 Design & Build

Develop the platform using modern, secure frameworks — building content and interface as a unified experience.

04 QA & Compliance

Cross-device testing, message refinement, and validation against security, accessibility, SEO, and regulatory standards.

05 Launch, Handover & Enablement

Deploy, document, and equip the client's team for full ownership — so they're never dependent on us to operate what we've built.

FOUNDER PROFILE

AI-Augmented. Human-Driven. Built to Deliver.

Deep expertise spanning full-stack web development, enterprise cloud architecture, and AI-augmented systems engineering. Delivers enterprise-grade output at startup speed — from township SME landing pages to AI-powered enterprise platforms.

Capability over credentials. **Outcomes over promises.**

TECHNICAL STACK

Next.js · React · Python / FastAPI · PostgreSQL · GCP / Vertex AI · Vercel · Sanity CMS · WhatsApp API · Make.com

Carter Digitals is named in tribute to a close friend who passed away in April 2021. The company exists as a living monument to that friendship — and as proof that the dream of building something real from nothing is still possible.

HOW WE WORK TOGETHER

Flexible Engagement Models

Choose the model that fits your mandate — or combine them.

01 Project-Based

DEFINED INITIATIVES

Fixed scope. Fixed cost. Zero surprises.

- Milestone-driven delivery
- Full scope agreed upfront
- No hidden fees. No ambiguity.

MOST FLEXIBLE

02 Retainer & Ongoing Support

LONG-TERM PARTNERSHIPS

Always optimising. Always on.

- Continuous performance monitoring
- Content updates & technical support
- Predictable monthly investment

03 Prototype-to-Production

RISK-SENSITIVE MANDATES

Validate first. Scale with confidence.

- Functional pilot before full rollout
- Real-world stakeholder validation
- Eliminate implementation risk

All models include Carter Digitals' signature 5–7 day delivery discipline and full compliance with POPIA, B-BBEE Level 1 standards.

CARTER DIGITALS

READY WHEN YOU ARE

LET'S BUILD SOMETHING THAT WORKS FOR YOU.

No obligation. No pitch. No pressure.
Just 30 minutes — and clarity on what we can build together.
